

ZX Auto Recloser

15.5kV, 27kV and 38kV

Load Break Switch

15.5kV, 27kV

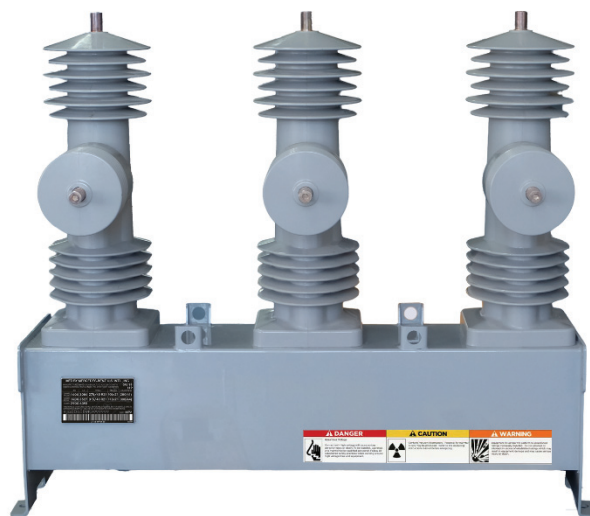

AUTOMATIC RECLOSER & LOAD BREAK SWITCH

GX SERIES LOAD BREAK SWITCH

The GX series switch is a solid-dielectric, three-phase load break switch for overhead applications. The switch combines the time-proven reliability of vacuum interrupter technology with the maintenance-free benefits of a solid-dielectric insulated device. The GX series are designed for three phase automatic or manual switching operations providing circuit isolation for systems rated 15kV to 27 kV, 630 A continuous current. The compact, light-weight design provides ease of installation. The Diamondback has been designed and tested to comply with the IEEE C37.74 and IEC 62271-103 (formerly IEC 60265-1:1998) standards.

Multiple controls available.

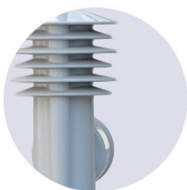

Rated Maximum Voltage	(kV)	15	27
Rated Continuous Current	(A)	400/630	630/400
Frequency	(Hz)	50/60	50/60
Rated Short-Time Current Withstand (rms, 3sec)	(kA)	12.5	12.5
Rated Peak Withstand Current (rms, asym)	(kA)	32.5	32.5
Rated Momentary Current, (rms, asym)	(kA)	32.5	32.5
100% Load Current Switching	(A)	630	630
50% Load Current Switching	(A)	315	315
10% Load Current Switching	(A)	63	63
Loop Current Switching	(A)	630	630
100% Cable Charging Current Switching	(A)	25	25
30% Cable Charging Current Switching	(A)	7.5	7.5
Line Charging Current Switching	(A)	1.5	1.5
Mechanical Operations Switching Performance	(times)	10000	10000
Impulse Withstand Voltage (1.2X50μs)	(kV)	150	110
Power Frequency Withstand Voltage (1 min)	(kV)	60	50

AUTOMATIC RECLOSER & LOAD BREAK SWITCH

General Features

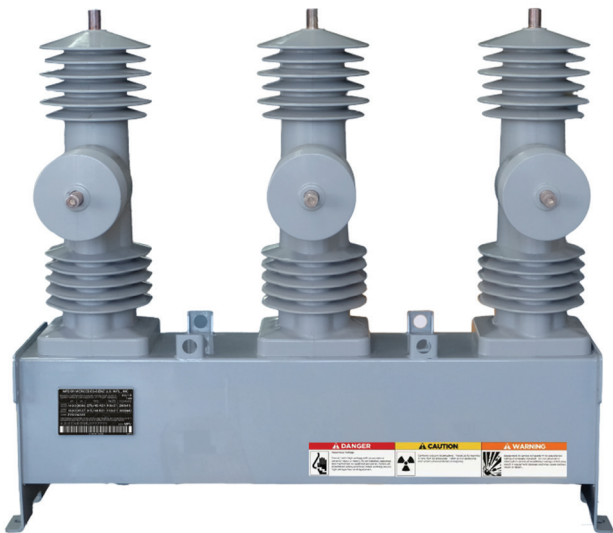

**Solid-Dielectric
Vacuum Technology**

**Six Voltage sensors
Three CTs**

**Position Indicator
Counter**

**20Pins Socket
IP67**

**Manual Open
Manual Close**

Lockout Handle
